Featuring close readings of selected poetry, visual texts, short stories and novels published for children since 1945 from Naughty Amelia Jane to Watership Down, this is the first extensive study of the nature and form of ethical discourse in British children's literature. Ethics in British Children's Literature explores the extent to which contemporary writing for children might be considered philosophical, tackling ethical spheres relevant to and arising from books for young people, such as naughtiness, good and evil, family life, and environmental ethics. Rigorously engaging with influential moral philosophers, from Aristotle through Kant and Hegel, to Arno Leopold, Iris Murdoch, Mary Midgley, and Lars Svendsen, this book demonstrates the narrative strategies employed to engage young readers as moral agents.

Business Success Requires Strategy First In Strategy First, Brad Chase, the mind behind some of Microsoft's largest and most successful initiatives, explains why building robust strategies is the imperative to business success. Chase leads readers through his easy-to-use strategy model, Strategy = E x mc², which teaches readers the art of strategy—how to build and execute winning strategies relative to the competition. To supplement the model, Chase provides 5 key tips to strategy prosperity and over 50 examples from a broad range of businesses that help the reader think about how they can use his Strategy First toolkit. The author will inspire readers to examine the effectiveness of their current strategies, using the model that has served him in his distinguished career. Chase began his Microsoft tenure in 1987, where his award-winning marketing campaign promoting Windows 95 broke numerous records and his efforts as MSN.com's leader prompted a turnaround of the site's success. Chase ended his tenure at Microsoft in 2002 and since then has served as an advisor and/or board member to many companies, such as GE, Brooks, Expedia, and the Boys and Girls Clubs. Chase has also shared his Strategy First approach across the nation through speeches to executives at large and small businesses, incubators, and students at topflight MBA programs and at conferences.
