Capital Budgeting - MCO-Adda

Capital budgeting is vital in marketing decisions. Decisions on investment, which take time to mature, have to be based on the returns which that investment will make. Unless the project is for social reasons only, if the investment is unprofitable in the long run, it is unwise to invest in it now.

Chapter 6 - Investment decisions - Capital budgeting

Capital budgeting, and investment appraisal, is the planning process used to determine whether an organization's long term

Read Book Capital Budgeting And Long Term

Investments such as new machinery, replacement of machinery, new plants, new products, and research development projects are worth the funding of cash through the firm's capitalization structure (debt, equity or retained earnings).
