Construction-Contract-Management-course-|CCM-United-Kingdom

Contract management is the process of managing contracts that are made as part of the delivery of a built asset. It involves the creation, analysis and execution of contracts by the parties to those contracts to ensure operational and financial performance is maximised, and risks are minimised. Contract management can categorised into three phases:

Contract management-Designing Buildings-Wiki

The Contracts (Rights of Third Parties) Act 1999 Has radically affected the doctrine of privity of contract. It grants a third party the right to enforce a term of a contract which has been made for their benefit. Not only positive rights but also defensive rights.

Contract Law-Designing Buildings-Wiki

This 1 day course prepares delegates to proficiently deal with the JCT contracts suite in the construction industry. The revised 2016 JCT contracts are mandatory knowledge for contractors, sub-contractors, project managers, designers and construction professionals, and this course caters to everyone by introducing the whole suite and explaining the 2016 changes.

contract and law courses from construction study centre

For a book covering "construction", I am amazed that it does not cover the contracts used to construct industrial facilities. General contract law is robustly introduced, the discussion of contract forms is too limited, which is quite an oversight and a shame given the quality of what is covered.

Amazon.co.uk Customer review: Construction Contracts: Law...

The contract administrator is responsible for managing the terms of the building contract between the parties. This requires knowledge and skills related to contract provisions application, the ability to set up appropriate office procedures and to keep accurate records commensurate for the scale and nature of the building contract.
