“Covenantal Apologetics places the defense of the Christian faith where it belongs: in a rich texture of appropriate contexts, beginning with the self-revelation of the triune God in the Bible and his created universe, and the covenantal relationship of all people (rebellious and redeemed) with their personal Creator. Instead of offering formulaic arguments to win debating points, Oliphint urges Christians to bring a full-orbed theology of God and humanity, of creation and redemption ...

While Covenantal Apologetics gives a great biblical foundation for apologetics, it falters in how we should winsomely put those principles into practice. Pros: Oliphant made an excellent argument for why we should use the term "covenantal apologetics," as opposed to the term "presuppositional apologetics." I was kind of skeptical at the beginning of the necessity of this change, and while it's still not a hill to die over, he did make a compelling case for why we should prefer the former term.

Covenantal apologetics are not reductionist apologetics. They are not formulaic in nature. These are strengths of the method, not weaknesses. Covenantal apologetics focus on the content of the Christian worldview as expressed in the biblically driven, historically orthodox tradition of Christianity coming out of the Reformation. Oliphint likewise succeeds in striking an almost perfect balance between the biblical, theological, and philosophical in describing and applying his apologetic ...

The reality of the West's post-Christendom, multiethnic, multicultural context has meant that, more than ever, Christians face questions posed not simply by the existence of other religions, but also by their apparent flourishing. If secularization is alive and well, then so too is society's sacralization. Hence, a theology of religions is arguably the most significant concern confronting Christian mission and apologetics in the twenty-first century. There has been little evangelical theology offering a detailed, comprehensive, and biblically faithful analysis not only of the question of salvation but also questions of truth, the nature and history of human religiosity, and a host of other issues pertaining to Christian apologetics and contextualization amid religious pluralism. In *Their Rock is Not Like Our Rock*, lecturer and vice principal of Oak Hill College in London, Daniel Strange, explores these issues and offers the beginning of a theology of other religions.

Challenging the dominant Van Tillian approach in Reformed apologetics, this book by a leading expert in contemporary Reformed theology sets forth the principles that undergird a classic Reformed approach. J. V. Fesko's detailed exegetical, theological, and historical argument takes as its starting point the classical Reformed understanding of the "two books" of God's revelation: nature and Scripture. Believers should always rest on the authority of Scripture but also can and should appeal to the book of nature in the apologetic task.

Maybe the only thing new about sexual abuse is quality discussion from several professions (psychology, theology, and pastoral care). Here are the insights of over two dozen psychologists, theologians, and those in pastoral care, all targeting the issue of sexual abuse. Designed as a resource for Christian educators, therapists, pastors, social workers, group leaders, and survivors, *The Long Journey Home* combines current research in mental health with rich theological reflection, global concern with fervent pastoral wisdom for the local faith community. Whether you are a counselor, professor, pastor, or spouse of a survivor, you hold in your hand a fresh resource of information and advocacy for those suffering from the devastating effects of sexual abuse and rape. The breadth of material, biblical insight, discussion questions, and helpful resources gathered here just may be the tool of a generation.

Noted scholars (William A. Dembski, Darrell L. Bock, etc.) address and respond to all major contemporary challenges (philosophical, historical, ethical, scientific, etc.) to the divine inspiration and authority of the Bible.

When was the last time you heard a sermon on the theological importance of play? What do rest, eating, studying -- and sex -- have to do with the Kingdom of God? Strangely, although these activities together take up much of our time, they seldom receive much discussion from a biblical point of view. In *The Rest of Life* Ben Witherington explores these subjects in the light of biblical teaching about the Kingdom of God and the Christian hope for the future. He shows why and how all the normal activities of life should be done to the glory of God and for the edification of others. Focusing as it does on practical, everyday matters in an accessible style, this topical study is ideal for both individual reading and small-group discussion.

Revision of the author's thesis (Ph. D.)--University of Oxford, 2010.

Truth? Can we know it? Noted scholar John Feinberg counters modern and postmodern skepticism, arguing that truth is both real and knowable. He makes a compelling case for Christian truth, epistemology, and apologetics through careful analysis and skilled argumentation.
