Wow - I love this book - as I did the previous two books in the trilogy (Dark Eden and Mother of Eden). As a whole, the three books (which need to be read in order) create a stunning picture of life on the alien plant of Eden, where a human community has grown up over a few centuries from two stranded astronauts.

The narrator here is Angie Redlantern, childhood friend of Starlight, the protagonist of the previous novel in Beckett's Dark Eden sequence, Mother of Eden, but long since struck out on her own from Knee Tree Grounds and living among the Davidfolk in Veeklehouse on the near side of Worldpool. Angie is a batface, one of the many such in Eden as a consequence of the inbreeding unavoidable in the scenario.

Angie Redlantern is the first to spot the boats - five abreast with men in metal masks and spears standing proud, ready for the fight to come. As the people of New Earth declare war on the people of Maignround, a dangerous era has dawned for Eden. After generations of division and disagreement, the two populations of Eden have finally broken their tentative peace, giving way to bloodshed and slaughter. Angie must flee with her family across the pitch black of Snowy Dark to the place where it all started, the stone circle where the people from Earth first landed, where the story of Gela - the mother of them all - began. It is there that Angie witnesses the most extraordinary event, one that will change the history of Eden forever. It will alter their future and re-shape their past. It is both a beginning and an ending. It is the true story of Eden.

"We speak of a mother's love, but we forget her power." Civilization has come to the alien, sunless planet its inhabitants call Eden. Just a few generations ago, the planet's five hundred inhabitants huddled together in the light and warmth of the Forest's lantern trees, afraid to venture out into the cold darkness around them. Now, humanity has spread across Eden, and two kingdoms have emerged. Both are sustained by violence and dominated by men - and both claim to be the favored children of Gela, the woman who came to Eden long ago on a boat that could cross the stars, and became the mother of them all. When young Starlight Brooking meets a handsome and powerful man from across Worldpool, she believes he will offer an outlet for her ambition and energy. But she has no inkling that she will become a stand-in for Gela herself, and wear Gela's fabled ring on her own finger-or that in this role, powerful and powerless all at once, she will try to change the course of Eden's history.

College sophomore Bryn Dawson is a self-proclaimed poster child for normal. However, the day William Hayward enters her life, normalcy is the last thing Bryn will be able to count on if she wants to be with him. Too mysterious and appealing to be good for a girl, Bryn feels drawn to him in a way that seems out of her control-as if fate is orchestrating it. Despite every red flag and warning siren going off in her head telling her not to, Bryn falls hard for William, knowing he's categorically different from anyone she's ever met. She never imagined how right she was. When William takes her deeper into the rabbit hole of his world, Bryn must decide just how much she is willing to sacrifice to be with him, knowing no matter what, fate always finds a way to have the last laugh. Spinning a new twist on star-crossed lovers, Eternal Eden will put Bryn through a gauntlet of turmoil, challenging her to find the power within herself to become the heroine in her own story.

A marooned outpost of humanity struggles to survive on a startlingly alien world.

DAUGHTERS OF EDEN focuses on the lives and fortunes of four very different young women at the outbreak of the Second World War. Marjorie, left at a boarding school by her emigrating mother; plain Poppy, pushed into marriage with a mean-spirited aristocrat; Kate, despised by her father, but determined to prove herself; and man-mad Lily, who turns out to be the bravest of them all. That all of them are chosen to work undercover for the espionage unit at a beautiful stately home is a surprise, not least to them. At Eden Park they not only meet each other, but become involved with three unusual young men - Eugene, the seemingly feckless Irishman; Robert, Kate's brother; and dashing Scott, a master of disguise, and the undisputed favourite of the unit. While there is hardly time for romance before each is sent out into the field, there is just enough for passionate new relationships to form. Only Jack Ward, the mysterious spymaster, manages to remain aloof as he guides their destinies. The fact that they will look back on this time as having made them feel more exquisitely alive than ever before is not something they will know until much later.

Two young girls hold the fate of the world in their hands in the highly anticipated sequel to the instant #1 New York Times bestseller Children of Eden. Two girls, one destiny. Yarrow is an elite: rich, regal, destined for greatness. She's the daughter of one of the most powerful women in Eden. At the exclusive Oaks boarding school, she makes life miserable for anyone foolish enough to cross her. Her life is one wild party after another...until she meets a fascinating, lilac-haired girl named Lark. Meanwhile, there is Rowan, who has been either hiding or running all her life. As an illegal second child in a strictly regulated world, her very existence is a threat to society, punishable by death...or worse. After her father betrayed his family, and after the government killed her mother, Rowan discovered a whole city of people like herself. Safe in an underground sanctuary that also protected the last living tree on Earth, Rowan found friendship, and maybe more, in a fearless hero named Lachlan. But when she was captured by the government, her fate was uncertain. When these two girls discover the thread that binds them together, the collision of memories means that their lives may change drastically-and that Eden may never be the same.

'Eden - it's where your life began, Madeleine. It's a place where the current of life runs stronger than anywhere else. In Eden the sun shines more fiercely, the rain strikes harder, and the trees are so green that it hurts your eyes. Eden is beauty and ugliness and joy and madness and decay. Beneath the great old silk-cotton tree, where the orchids and lianas hang right down to the ground, and the fireflies glitter like spangles from dusk till dawn...' Madeleine is left to bring up her younger sister in a remote cottage on the west coast of Scotland after her mother, Rose, has died in childbirth. Tainted by the discovery that she is illegitimate, Madeleine is plunged into poverty in London before marrying out of desperation a wealthy cousin of her father's, who does not know her true identity. And thus she comes to live at the old family estate of Eden in the hills of Jamaica, often talked about by her mother - a beautiful, decaying house with its overgrown garden, lush sugar plantation and myriads of secrets. Rose had loved Eden more than anything, and now Madeleine has to take her place there.

The electrifying #1 New York Times bestselling debut novel from YouTube sensation Joey Graceffa dares to ask the question: What would you do in order to survive if your very existence were illegal? Rowan is a second child in a world where population control measures make her an outlaw, marked for death. She can never go to school, make friends, or get the eye implants that will mark her as a true member of Eden. Outside of Eden, Earth is poisoned and dead. All animals and most plants have been destroyed by a man-made catastrophe. Long ago, the brilliant scientist Aaron Al-Baz saved a pocket of civilization by designing the EcoPanopticon, a massive computer program that hijacked all global technology and put it to use preserving the last vestiges of mankind. Humans will wait for thousands of years in Eden until the EcoPan heals the world. As an illegal second child, Rowan has been hidden away from the ruthless Center government in her family's compound for sixteen years. Now, desperate to see the world, she recklessly escapes for what she swears will be only one night of adventure. Though she finds an exotic world, and even a friend, the night leads to tragedy.
