In this time of quarantine and global uncertainty, it can be difficult to deal with the increased stress and anxiety. Using ancient self-care techniques rediscovered by Herbert Benson, M.D., a pioneer in mind/body medicine for health and wellness, you can relieve your stress, anxiety, and depression at home with just ten minutes a day. Herbert Benson, M.D., first wrote about a simple, effective mind/body approach to lowering blood pressure in The Relaxation Response. When Dr. Benson introduced this approach to relieving stress over forty years ago, his book became an instant national bestseller, which has sold over six million copies. Since that time, millions of people have learned the secret—without high-priced lectures or prescription medicines. The Relaxation Response has become the classic reference recommended by most health care professionals and authorities to treat the harmful effects of stress, anxiety, depression, and high blood pressure. Rediscovered by Dr. Benson and his colleagues in the laboratories of Harvard Medical School and its teaching hospitals, this revitalizing, therapeutic tack is now routinely recommended to treat patients suffering from stress and anxiety, including heart conditions, high blood pressure, chronic pain, insomnia, and many other physical and psychological ailments. It requires only minutes to learn, and just ten minutes of practice a day.

Meditation instructor, Deepak Chopra prot é g é , director of Meditation Wanderlust Hollywood, and Lululemon ambassador Megan Monahan presents a no-nonsense guide to meditation for everyday soul-searchers. This modern guide to meditation from instructor Megan Monahan takes readers beyond empty Instagram truisms to the simple yet effective ways to "meditate their way through the bad shit and into the good shit." With a fresh voice and perspective, Monahan presents a set of tools grounded in a meditation technique that is impossible to screw up. With her help, you'll unpack the five spiritual mindsets (Presence, Acceptance, Intention, Nonjudgment, and Trust, aka PAINT) that are key to moving out of constriction and fear and into a more expansive space within yourself and your life. Ultimately, you will quickly notice, at any triggering moment, where you're getting stuck and how to more consciously move through it. The good news? This process is applicable to everything in your life, from missing a flight to seeing your ex's engagement photo on social media to losing your job. Wouldn't it be nice to not be completely leveled by any of those occurrences? Plot twist: After reading this book, taking the quizzes, and doing the themed meditations . . . you won't be!

Leading psychologists Susan M. Orsillo and Lizabeth Roemer present a powerful new alternative that can help you break free of anxiety by fundamentally changing how you relate to it.

“ A must-read for anyone interested in incorporating meditation into their lifestyle.” — Sanjay Gupta, MD, chief medical correspondent for CNN Heartfulness is an ideal, a spiritual way of living by and from the heart that is inclusive of all ideologies, beliefs, and religions. In this heart-centered book, a student in conversation with his teacher, Kamlesh D. Patel—affectionately known as Daaji, the fourth and current spiritual guide of the century-old Heartfulness tradition—presents a unique method of meditation with the power to facilitate an immediate, tangible spiritual experience, irrespective of a person ' s faith. Our modern, fast-paced world can be an overwhelming place. Every day, we ' re bombarded with messages telling us that in order to be happy, fulfilled, and worthy, we must be better, do more, and accumulate as much material wealth as possible. Most of us move through our busy lives with our minds full of these ideas, multitasking as we strive to navigate the responsibilities and expectations we must meet just to make it through the day. But what if there is another way? What if, rather than letting the busyness of life overtake our minds, we learn to be heartfelt instead? Based on Daaji ' s own combination of approaches and practices for the modern seeker—which draws from the teachings of Sahaj Marg, meaning “ Natural Path ”—Heartfulness is a contemporized version of the ancient Indian practice of Raja Yoga, a tradition that enables the practitioner to realize the higher Self within. While many books describe refined states of being, The Heartfulness Way goes further, providing a pragmatic course to experience those states for oneself, which, per the book ' s guiding principle, is “ greater than knowledge.” Heartfulness meditation consists of four elements—relaxation, meditation, cleaning, and prayer—and illuminates the ancient, defining feature of yogic transmission (or pranahuti), the utilization of divine energy for spiritual growth and transformation. Using the method, detailed practices, tips, and practical philosophy offered in this book, you ' ll reach new levels of attainment and learn to live a life more deeply connected to the values of the Heartfulness way—with acceptance, humility, compassion, empathy, and love.

Winner of BEST BOOK OF THE YEAR from COVR (The Coalition of Visionary Resources), that recognizes the best new products in the New Age industry. Enlightened sleep practices for the modern mind. Buddha ' s Book of Sleep is the first book to address sleep disturbances with techniques from mindfulness meditation. Yet this is a natural choice—mindfulness meditation has proven effective for psychological problems such as stress, depression, and anxiety, and these very issues are what become sleep problems when your head hits the pillow. Divided into two sections, the book approaches sleep deprivation with a combination of wisdom and practical meditation exercises. The first section explains why mindfulness meditation, with its basis in self-awareness, is appropriate for dealing with sleeping problems, and details the practices of this increasingly popular form of meditation. The second section features seven specific exercises to do at bedtime or in the wee hours of the morning, or whenever your sleeping trouble occurs. With a foreword by Thich Nhat Hanh. Providing a new perspective on why you cannot fall asleep even when you feel exhausted, and arming you with easy-to-use mindfulness meditation exercises, Buddha ' s Book of Sleep will help you calm your hurried thoughts, and go from feeling always sleepy to getting the rest you need.
