Richard Coggins has made an excellent introduction to modern study of the Old Testament even better in the second edition of his 'Introducing the Old Testament'.Richard Coggins has made an excellent introduction to modern study of the Old Testament even better in the second edition of his Introducing the Old Testament sThis volume not only introduces the Old Testament from the traditional 'historical-critical' perspective, but also considers sociological and anthropological, feminist and liberation perspectives, and literary criticism. In this new edition, Coggins looks again at key issues in the light of recent scholarly developments, addressing contemporary debate on historical questions, radical developments in the field of archaeology, and considering women's readings in a separate chapter.

Limnology provides an in-depth and current overview of the field of limnology. The result of a major tour de force by two renowned and experienced experts, this unique and richly illustrated reference presents a wealth of data on limnology history, water as a substrate, lakes origins and aquatic biota. Besides a general part, it gives special focus to neotropical limnology, prevalently applicable in countries in the Southern Hemisphere. Starting with the essentials, some definitions and a historical account, this volume then details the main interaction mechanisms with physical and chemical factors, diversity and geographical distribution. With regard to the major continental aquatic systems, it treats the dynamics, variability and characterization of lakes, reservoirs, flooded areas, saline lakes, estuaries and coastal lagoons. The impact of human activity on water resources and the need for the rehabilitation of watersheds, watershed ecosystems and estuaries are addressed subsequently. To illustrate theory, the final part includes research examples in limnology, ecology and environmental sciences in different geographical contexts, as well as ideas for new investigations. This reference volume is intended for researchers and professionals working on inland waters, lakes and rivers within the fields of biology, ecology, environment, forestry, geochemistry, geophysics, and water management. It will also benefit students in the aforementioned areas and readers involved with limnology in related disciplines, such as earth sciences, environmental, water and geological engineering.

A transdisciplinary collaboration among ethnologists, linguists, and archaeologists, Ethnicity in Ancient Amazonia traces the emergence, expansion, and decline of cultural identities in indigenous Amazonia. Hornborg and Hill argue that the tendency to link language, culture, and biology--essentialist notions of ethnic identities--is a Eurocentric bias that has characterized largely inaccurate explanations of the distribution of ethnic groups and languages in Amazonia. The evidence, however, suggests a much more fluid relationship among geography, language use, ethnic identity, and genetics. In Ethnicity in Ancient Amazonia, leading linguists, ethnographers, ethnohistorians, and archaeologists interpret their research from a unique nonessentialist perspective to form a more accurate picture of the ethnolinguistic diversity in this area. Revealing how ethnic identity construction is constantly in flux, contributors show how such processes can be traced through different ethnic markers such as pottery styles and languages. Scholars and students studying lowland South America will be especially interested, as will anthropologists intrigued by its cutting-edge, interdisciplinary approach.

In this third book of the Sundering series kicked off by R.A. Salvatore and the dark elf Drizzt, SCRIBE award-winning author Erin M. Evans thrusts her signature character Farideh into a maelstrom of devilish politics and magical intrigue that will have far-reaching implications for the future of the Forgotten Realms. As the chaos of the Sundering rages around her, young warlock Farideh faces a more personal turmoil wrought by a deal she made with a devil years ago. Hoping to protect her twin sister, she leaves everything she holds dear to assist a wizard in a scheme that pits the devils of the Nine Hells against the gods above. But when Farideh casts the spell to enter the wizard ' s remote mountaintop fortress, she picks up a stowaway—a Harper agent named Dahl who isn ' t so inclined to follow devilish demands. Dahl attempts to escape only to run into a village of odd people, lurking behind an impenetrable wall. Forced to gaze into the villagers ' souls, Farideh points out the ones who seem different, only to watch as the wizard ' s guard carts them off to fates unknown. Are these villagers or prisoners? Are they blessed or doomed by the gods? As the wizard ' s guessing game proves more and more diabolical, Farideh resolves to unravel his secrets—even if it means she ' ll lose her own soul to the Nine Hells. From the Hardcover edition.
