Managing Upper Airway Obstruction Mag Online Library

Selective filtration, high kilovoltage, and fine focal spot magnification produce detailed radiographs of the airway of infants and small children. This technique has been applied to the study of upper airway obstruction in the glottic, subglottic, and supraglottic areas. Its great diagnostic yield is accompanied by a reduction in radiation dose compared to that of a nonfilter technique.

Upper Airway Obstruction in Infants and Small Children ...

Upper-airway obstruction (UAO) can occur as an acute disorder or on a chronic basis. The acute causes of airway obstruction are usually life threatening and need immediate medical and surgical management. Upper-airway compromise of a sub-acute or chronic variety can progress (with respiratory difficulty for days or months) before patients seek medical attention.
