Glencoe/McGraw-Hill has developed the Science Notebook for science students based upon that research.

Based on the Cornell note-taking format, this resource incorporates writing into the learning process. Directly linked to the student text, this notebook provides a systematic approach to learning science by encouraging students to engage by summarizing and synthesizing abstract concepts in their own words

Reading Essentials, student edition provides an interactive reading experience to improve student comprehension of science content. It makes lesson content more accessible to struggling students and supports goals for differentiated instruction. Students can highlight text and take notes right in the book!

Inspire Science 2.0 science handbook is an easy-to-use research and reference tool covering all core science

topics which teaches students research and cross-referencing skills.

Based on the Cornell note-taking format, this resource incorporates writing into the learning process. Directly linked to the student text, this notebook provides a systematic approach to learning science by encouraging students to engage by summarizing and synthesizing abstract concepts in their own words

An introductory text for a one- or two-semester text on the fundamental behavior of matter and energy for nonscience majors, covering physics, chemistry, astronomy, and earth sciences. Material incorporates minimal use of technical terminology, discussion of applications and environmental concerns throughout, and historical background, with emphasis on problem-solving mathematics. Learning aids include chapter summaries, key terms, and multiple-choice and critical thinking questions. Exercises are given in two sets, one with explained answers. Includes an art notebook of explanatory color diagrams. Annotation copyright by Book News, Inc., Portland, OR
