Memoirs of a Goldfish is a very cute humorous tale - an award winning story, well conceived and orchestrated. However, don ' t be duped into thinking that both Memoirs of a Hamster and Memoirs of a Parrot are of the same caliber. Their plots are distressing and the language is rough making them inappropriate for young minds.

Mayday. Mayday. Mayday . . . Every member of the Goldfish Club has been forced to broadcast these terrifying words from a stricken aircraft, making them one of the most unusual fellowships in the world. Formed during the Second World War to foster comradeship among pilots who had been forced to bail out over water, the Goldfish Club has taken on new airmen (and one woman) ever since and there are hundreds of tales to be told. All are different. All are utterly gripping. Award winning journalist and author Danny Danziger has brought together some of the most powerful stories of this extraordinary brotherhood. A few will leave you open-mouthed, others may reduce you to tears, but all are a fascinating testament to the resilience of the human spirit.

Oliver the tortoise has had his human, Ike, for a very, very long time now. In fact, they're the same age--80 years old--and practically twins. They both enjoy the slowness of the garden, cool water from the hose on a hot day, and a nice slice of honeydew melon. But when Ike stops visiting the garden, Oliver wonders why his pet has left him so soon. So he makes the long journey to see his mother ten gardens away--she will certainly have the answer. This tender story from the author and illustrator that brought us *Memoirs of a Goldfish* reminds us to cherish all the days we have with our pets and loved ones.

"A sweet story that could be used as a springboard to discussion of the pitfalls of making snap judgments about

pets — or people." — School Library Journal Norman the goldfish isn't what this little boy had in mind. He wanted a different kind of pet — one that could run and catch, or chase string and climb trees, a soft furry pet to sleep on his bed at night. Definitely not Norman. But when he tries to trade Norman for a "good pet," things don't go as he planned. Could it be that Norman is a better pet than he thought? With wry humor and lighthearted affection, author Kelly Bennett and illustrator Noah Z. Jones tell an unexpected — and positively fishy — tale about finding the good in something you didn't know you wanted.

Follow Richard the growing goldfish from an indoor tank to an outdoor pond in a story filled with gorgeous multilayered illustrations and sprinkled with fascinating facts. When I was four, I got my first pet: a fish no bigger than my hand, with red and orange scales. My very own goldfish! In his big tank in the kitchen, Richard the goldfish quickly bonds with—and even learns to recognize—his human companion, who tells him all about his day after school. A visiting friend, Sandy, shares some cool fish facts: Did you know that goldfish nap with their eyes open—because they don't have eyelids? Or that they can let you know they're hungry by swimming up and blowing bubbles? Sandy has a backyard pond filled with goldfish of all shapes and jewel-like colors, some much bigger (and older) than his friend's new pet. What might Richard's own future hold? Drawn in by the expressive illustrations and child-friendly tone, readers will emerge with a new appreciation for the beauty and personality of these classic pets. Kids inspired to care for a goldfish of their own will find a list of things they will need in the back matter.

had dropped out beneath her. Her grief, however, was immediately interrupted by the realization that she would have to tell their three-year-old son, Jake, that his father was dying. The prognosis gave her husband just a year to live. In that short time, the three of them—Patty, Willem, and Jake—would have to find a way to live with the illness and prepare for his death. Written with disarming honesty, courage, and humor, Patty weaves together a series of vignettes that chart her and Jake ' s eventual acceptance of their new family—through coping with the daily challenges, the sorrow, and the uncertainty, as well as embracing the surprising moments of beauty and acceptance. As much about exploring memory as it is about appreciating the moment, this captivating narrative will serve as a genuine comfort to anyone surprised by grief.

When Tom's big brother decides to become an Evil Scientist, his first experiment involves dunking Frankie the goldfish into toxic green gunk. Tom knows that there is only one thing to do: Zap the fish with a battery and bring him back to life! But there's something weird about the new Frankie. He's now a **BIG FAT ZOMBIE GOLDFISH** with hypnotic powers . . . and he's out for revenge!

A goldfish gives a personal account of his experiences while swimming around his bowl as it slowly fills with fish and other accessories, only to realize when he is relocated for a cleaning how much he misses them.
