This blog series is just more evidence that the microfinance industry is currently united around a common concern: avoiding over-indebtedness. Whether to protect the social impact on customers or the institutional viability of MFIs, over-indebtedness is crucial to all parties involved. Still the most fundamental questions on over-indebtedness remain unanswered – in his recent post Rich Rosenberg says “ we ’ re flying blind. ” .

This paper deals with other forms of over-indebtedness, examining the daily indebtedness of poor rural households in Tamil Nadu. In the villages examined, debt does not necessarily lead to the dramatic situations observed amongst cotton farmers or microfinance clients, but it can be nevertheless a source of impoverishment, pauperization and dependency.

During my undergraduate studies at the University of Aberdeen I explored several different aspects of inequality including debt and over-indebtedness. I chose to look at the Wealth and Asset Survey (WAS) as a case study to gain a deeper understanding of not just how many households were affected by over-indebtedness in the UK, but the age, life stage, and geographical area of those affected.
