**OECD Library | Transfer Pricing Methods**

The OECD Transfer Pricing Guidelines (OECD Guidelines) provide 5 common transfer pricing methods that are accepted by nearly all tax authorities. The five transfer pricing methods are divided in "traditional transaction methods" and "transactional profit methods." Traditional Transaction Methods

*The Five Transfer Pricing Methods Explained | With Examples*

The OECD Transfer Pricing Guidelines for Multinational Enterprises and Tax Administrations provide guidance on the application of the "arm's length principle", which is the international consensus on transfer pricing, i.e. on the valuation, for tax purposes, of cross-border transactions between associated enterprises. In a global economy where multinational enterprises (MNEs) play a prominent role, transfer pricing is high on the agenda of tax administrators and taxpayers alike.

**OECD Library | Transfer Pricing Methods**

The EY Worldwide Transfer Pricing Reference Guide 2019-20 is a publication designed to help international tax executives identify transfer pricing rules, practices and approaches. These must be understood for a company to carry out both transfer pricing compliance and planning activities in the base erosion and profit shifting (BEPS)1 era.

*Worldwide Transfer Pricing Reference Guide 2019-20 | EY--*

Chapter 2 of the OECD Guidelines presents five main transfer pricing methods to determine the arm's length nature of a controlled transaction. The methods are divided into two categories: traditional transaction methods and transactional profit methods.

**Transfer Pricing Methods | TP analytics**

OECD transfer pricing methods. The OECD Guidelines define a number of methods that can be used to determine arm's-length prices for intra-group transactions. These methods are categorized either as traditional transaction methods or transactional profit methods. Traditional transaction methods will compare third-party prices, or other less direct measures such as gross margins on third-party transactions, with the same measures on the transactions under review.

This 2017 edition of the OECD Transfer Pricing Guidelines incorporates the substantial revisions made in 2016 to reflect the clarifications and revisions agreed in the 2015 BEPS Reports on Actions 8-10 Aligning Transfer pricing Outcomes with Value Creation and on Action 13 Transfer Pricing Documentation and Country-by-Country Reporting. It also includes the revised guidance on safe harbours ...

**OECD Transfer Pricing Guidelines for Multinational--**

The OECD guidance on the transfer pricing implications of the COVID-19 pandemic should be regarded as an application of existing guidance under the OECD Transfer Pricing Guidelines ("OECD TPG") to fact patterns that may arise commonly in connection with the pandemic. It should not be regarded as an expansion or revision of the OECD TPG.

*The OECD publishes its guidance on the transfer pricing--*

General Description on the Selection of the Most Appropriate OECD Transfer Pricing Method 1 Introduction and General Remarks Cross-border transfer pricing requires arm's length analysis and arm's length documentation. This short notice describes, in a nutshell, the selection of arm's length testing approaches.

**OECD Transfer Pricing Methods**

Of the 38 survey respondents, 36 indicated the comparable uncontrolled price/transaction (CUP/CUT) method as the most common transfer pricing methodology adopted for intercompany licensing transactions. When applied, the CUP method relies on internal comparables or more often on database studies for external comparable license agreements.

**GLOBAL TAX & TRANSFER PRICING GUIDE ON LICENSING OF--**

The TNMM is one of two transactional profit methods outlined by the OECD for determining transfer pricing. These types of methods assess the profits from particular controlled transactions. The TNMM involves assessing net profit against an "appropriate base", such as sales or assets, that results from a controlled transaction.

**Transfer pricing methods | Royalty Range**

As an independent Commission, since the beginning of the G20/OECD Base Erosion and Profit Shifting process we have urged governments to move away from the existing transfer pricing system towards a unitary approach to taxation of multinationals ("MNEs"), based on a system of multi-factor global formulary apportionment, together with a ...

*ICRICT Response to the OECD consultation on the Pillar One--*

4. To what types of transactions do the transfer pricing rules apply? 5. Do the relevant transfer pricing rules adhere to the arm's-length principle? 6. How has the OECD's project on base erosion and profit shifting (BEPS) affected the applicable transfer pricing rules? 7. What transfer pricing methods are acceptable?

**Transfer pricing--Germany--Q&A guide | Legal Guidance--**

The OECD Transfer Pricing Guidelines (the OECD Guidelines) provide 5 common transfer pricing methods, accepted by nearly all tax authorities. The methods split up into "traditional transaction methods" and "transactional profit methods." The Transactional Net Margin Method is a transactional profit method.
