The impairment rules of IFRS 9 introduce a new, forward looking, expected credit loss ('ECL') impairment model which will generally result in earlier recognition of losses compared to IAS 39. These changes are likely to have a significant impact on entities that have significant financial assets, in particular financial institutions.

PwC's 'In depth - IFRS 9 impairment practical guide: provision matrix' provides guidance for calculating expected credit losses for those balances. This practical guide discusses which intercompany loans fall within the scope of IFRS 9 and how to calculate expected credit losses on those that do.

IFRS 9 Impairment - Intercompany loans: PwC In depth ...
Paragraph 5.5.20 of IFRS 9 contains an exception for certain types of financial instruments to measure expected credit losses over the period that the entity is exposed to credit risk, even if that period extends beyond the contractual period. The exception applies to some financial instruments that include both a loan and an undrawn commitment.

IFRS 9: Impairment of financial assets - PwC's Inform
The introduction of the expected credit loss (ECL) impairment requirements in IFRS 9, 'Financial Instruments', represents a significant change from the incurred loss requirements of IAS 39. With this change comes additional complexity, both in interpreting the technical requirements and in applying them.

IFRS 9 impairment: how to include ... - PwC's Inform | INT
IFRS 9 fundamentally changed the accounting for financial instruments. The three key areas are Classification & Measurement (amortised cost, fair value with changes recognised in OCI or fair value with changes recognised in P&L), Impairment (forward-looking expected credit loss model) and Hedge accounting (rules have been eased).

In depth A look at current financial reporting issues - PwC
International Financial Reporting Standard 9 (IFRS 9) responds to criticisms that International Accounting Standard 39 (IAS 39) is too complex, is inconsistent with the way entities manage their businesses and risks, and defers the recognition of credit losses on loans and receivables until too late in the credit cycle.

IFRS 9: Financial Instruments | PwC Canada
The IFRS 9 project was originally part of the IASB's and FASB's joint convergence initiative. The Boards stopped working on the project except for impairment of loans and receivables because they were unable to reach agreement on certain key matters, and other projects took priority.
