Usually dispatched within 3 weeks. Synopsis. In the course of the fifth century, the farms and villas of lowland Britain were replaced by a new, distinctive form of rural settlement: the settlements of Anglo-Saxon communities. This volume presents the first major synthesis of the evidence - which has expanded enormously in recent years - for such settlements from across England and throughout the Anglo-Saxon period, and what it reveals about the communities who built and lived in them, and ...

involved in primary activities such as farming, lumbering and mining. On the other hand, urban communities are engaged predominantly in secondary and tertiary activities such as construction, food processing, banking research etc. Rural and urban settlements are often compared also in terms of their functions, population sizes and population density. A rural settlement tends to have small population and low population density. Urban ...
