A research proposal is a plan that a candidate submits to gain approval for post-graduate research. Although it is a typical requirement for any research in higher education, it has failed to receive the attention it deserves from the academic community as a procedure of systematic teaching and learning. This book provides a support framework with step-by-step guidance about what constitutes a good research proposal and what can be done to maximize one's chances of writing a successful application. It also presents advice and practical activities to enhance skill development, and shows how success is within reach if we are willing to face our flaws and grasp how to use the available information productively and persuasively.

Provides guidelines and examples for handling research, outlining, spelling, punctuation, formatting, and documentation.

This helpful step-by-step handbook will guide the reader through each stage of doing a research proposal from choosing a subject right through to writing it up.

The public assumes the researcher spends the day dreaming up and trying out creative ideas. In reality, proposal development is an invisible but critical barrier over which even a good researcher may tumble. This book is intended to lower that barrier. It should increase first-trial recognition of good ideas and ensure that rejections do not result because a proposal poorly represented either the ideas, the investigator, or both.

This Second Edition of Diana Ridley's bestselling guide to the literature review outlines practical strategies for reading and note taking, and guides the reader on how to conduct a systematic search of the available literature, and uses cases and examples throughout to demonstrate best practice in writing and presenting the review. New to this edition are examples drawn from a wide range of disciplines, a new chapter on conducting a systematic review, increased coverage of issues of evaluating quality and conducting reviews using online sources and online literature and enhanced guidance in dealing with copyright and permissions issues.

This user-friendly guide helps students get started on--and complete--a successful doctoral dissertation proposal by accessibly explaining the process and breaking it down into manageable steps. Steven R. Terrell demonstrates how to write each chapter of the proposal, including the problem statement, purpose statement, and research questions and hypotheses; literature review; and detailed plan for data collection and analysis. Of special utility, end-of-chapter exercises serve as building blocks for developing a full draft of an original proposal. Numerous case study examples are drawn from across the social, behavioral, and health science disciplines. Appendices present an exemplary proposal written three ways to encompass quantitative, qualitative, and mixed-methods designs. User-Friendly Features *"Let's Start Writing" exercises leading up to a complete proposal draft. *"Do You Understand?" checklists of key terms plus an end-of-book glossary. *End-of-chapter quizzes with answers. *Case study examples from education, psychology, health sciences, business, and information systems. *Sample proposal with three variants of the methods chapter: quantitative, qualitative, and mixed methods.

The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor Is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

What are the core elements of a strong proposal? How can I accent the strengths of my study design? What is the best way to get my proposal reviewed and approved?
