It is no secret that men are in trouble today. From war to ecological collapse, most of the world ' s critical problems stem from a distorted masculinity out of control. Yet our culture rewards the very dysfunctions responsible for those problems. To Matthew Fox, our crucial task is to open our minds to a deeper understanding of the healthy masculine than we receive from our media, culture, and religions. Popular religion forces the punitive imagery of fundamentalism on us, pushing most men away from their natural yearning for spirituality and toward intolerance and domination. Meanwhile, many men, particularly young men, are looking for images of healthy masculinity to emulate and finding nothing. To awaken what Fox calls “ the sacred masculine, ” he unearths ten metaphors, or archetypes, ranging from the Green Man, an ancient pagan symbol of our fundamental relationship with nature, to the Grandfatherly Heart to the Spiritual Warrior. He explores archetypes of sacred marriage, showing how partnership becomes the ultimate expression of healthy masculinity. By stirring our natural yearning for healthy spirituality, Fox argues, these timeless archetypes can inspire men to pursue their higher calling to reinvent

Named one of the Fifty Best Spiritual Books of 2013 by SPIRITUALITY & PRACTICE in the JUSTICE category! The Occupy Wall Street movement and protest movements around the world are evidence of a new era of intergenerational activists seeking deeper spiritual meaning in their quest for peace and justice. This book is a call to action for a new era of spirituality-infused activism. Authors Adam Bucko and Matthew Fox encourage us to use our talents in service of compassion and justice and to move beyond our broken systems--economic, political, educational, and religious--discovering a spirituality that not only helps us to get along, but also encourages us to reevaluate our traditions, transforming them and in the process building a more sacred and just world. Incorporating the words of young activist leaders culled from interviews and surveys, the book provides a framework that is deliberately interfaith and speaks to our profound yearning for a life with spiritual purpose and for a better world. Each chapter is construed as a dialogue between Fox, a 72-year-old theologian, and Bucko, a 37-year-old spiritual activist and mentor to homeless youth. As we listen in on these familiar yet profound conversations, we learn about Fox and Bucko's own spiritual journeys and discover a radical spirituality

Retirement is certainly not a new concept. In our Western Societies it the way most individuals plan to spend the last third of their lives. Depending on how financially and emotionally well prepared one is, this period in one's life can provide rich and rewarding experiences. On the other hand, there are dark mysteries in these years that have been largely ignored. However, Society is beginning to learn that for most people, especially but not exclusively men, are psychological unprepared for what they are finding in these latter years in their lives. What's more, the problems that arise when a man retires are totally unexpected, much less easily addressed. In some cases not treating these psychological issues leads to divorce, alcoholism, or in severe cases, suicide. This is why I call this period the Mr. Everest on life. What's worse, the psychological community that has taken on the challenge to protect

society from situations like this has all but ignored that there is any problem. I find this both shocking and unconscious able. Up to now the Third Age transition hasn't caused too many severe problems. However, between January 1st 2011 and 2030 seventy million of the Baby Boomer generation (some ten thousand per day) will have turned sixty-five. This will do precisely to the Third Age what the same cohort did to the earlier ages; reframe the dialogue. Retirees, both women and men, must take heed to this issue that will literally change their lives.

In this book, Adrian Thatcher offers fresh theological arguments for expanding our understanding of gender. He begins by describing the various meanings of gender and depicts the relations between women and men as a pervasive human and global problem. Thatcher then critiques naive and harmful theological accounts of sexuality and gender as binary opposites or mistaken identities. Demonstrating that the gendered theologies of Hans Urs von Balthasar and Karl Barth, as well as the Vatican's "war on gender" rest on questionable binary models, he replaces these models with a human continuum that allows for sexual difference without assuming "opposite sexes" and normative sexualities. Grounded in core Christian doctrines, this continuum enables a full theological affirmation of LGBTIQ people. Thatcher also addresses the excesses of the male/female binary in secular culture and outlines a hermeneutic that delivers justice and acceptance instead of sexism and discrimination.
