From sweet and savory to fluffy and flaky—tried-and-tested recipes made for the 21st-century outdoor adventurer. Most recipes are developed and employed at or close to sea level, so what is a baker to do if they live 5,000 feet higher? In *The Mountain Baker*, longtime mountain dwellers Mimi Council and Kimmy Fasani share their recipes for successful cakes, cookies, muffins, breads, and beyond. With their firsthand experience, Council and Fasani are just the women to talk about the science behind high-altitude baking and cooking. From hearty eats and apres snacks to decadent desserts, these recipes include conversions for sea-level kitchens, so home bakers can enjoy these treats wherever they cook: Double Black Diamond Brownies, Honey Graham Pancakes, Rosemary Parmesan Biscotti, Pizza Bread, Snow Day Cake, and more. With tips on why your alpine cakes are sinking or why your cookies are burning, this is the go-to resource to help readers fearlessly face their high-altitude kitchen or simply get in the outdoor spirit.

Snowboarding as a winter sport has exploded in popularity in the last 25 years. One of the most prolific and talented photographers of this extreme sport is Jeff Curtes. CHASING EPIC: THE SNOWBOARD PHOTOGRAPHS OF JEFF

CURTES is not only the ultimate document of snowboarding but an impressive artistic achievement as well. Curtes's camera juxtaposes the best snowboarders of our time, including Shaun White and many others, across impossibly beautiful, majestic, and insane mountainsides. His compositions emphasize the lone individual soaring across awe-inspiring landscapes in an almost surreal and sometimes abstract figure/ground/sky relationship. Curtes's images capture the skill, courage, and freedom that these athletes possess in their pursuit of the perfect ride. Jeff Curtes has been at the forefront of the snowboarding industry's imagery since his first published work back in 1992. In 1994, Curtes signed with Burton Snowboards and had been their principal photographer until 2012, nearly 20 years behind the lens on the snow. Jeff's work with Burton, originating with action-centric images, was unique in that it came from within the core snowboarder's lifestyle. He was living and breathing snowboarding with his brother, Joe Curtes, as they traveled from the Midwest to the Mountains of the West Coast. Burton allowed Curtes to travel the world in search of the epic conditions that every snowboarder dreams of, and, in return, Curtes's camera delivered an overwhelming collection of photographs to their light table. These images not only made incredible advertising and catalog content but also defined a subculture and captured the early history of snowboarding like no others before.

This book: Strategic Management of Technological Innovation, Sixth Edition is written for courses that may be called strategic management of technology and innovation, technology strategy, technology innovation, technology management, or for specialized new product development courses that focus on technology. The subject is approached as a strategic process, and as such, is organized to mirror the strategic management process used in most strategy textbooks, progressing from assessing the competitive dynamics of a situation, to strategy formulation, to strategy implementation. Highlights: 1. Complete Coverage for Both Business and Engineering Students 2. New Short Cases and New Indian Cases 3. Cases, Data, and Examples from around the World 4. More Comprehensive Coverage and Focus on Current Innovation Trends

Esquire. Ford Motors. Burton Snowboards. The Obama Administration. While all of these brands are vastly different, they share at least one thing in common: a teeny, little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. *Pretty Much Everything* is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like *Field Notes* and the “*Things We Love*” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin's humor and pointed observations on the contemporary design scene, Draplin Design Co. is the complete package for the new generation of designers.

Move over, dude! *The Kook's Guide to Surfing* shows what it means to be a real surfer. This clever, often hilarious guide shares with kooks (those guys on surfboards who just don't get it yet) the truths and know-how of a lifelong wave-lover. The secret: surfing responsibly and sharing the waves. You don't have to be “too cool for school” to be cool in the water. But surfing like a pro isn't just about courtesy, and neither is *The Kook's Guide to Surfing*. The ultimate guide to great surfing, it's got tips on choosing the right board for the right wave, stances and paddling, avoiding injuries and staying safe, and—once all that has been mastered—how and where to show off your skills in the big competitions. Other topics include: First lessons and helpful tips Physical fitness Types of waves Surf etiquette Buying surfboards An index of the best surf locations Filled with witty illustrations, a glossary of surfing terminology, and fun “Hey, Kook!” trivia, *The Kook's Guide to Surfing* will turn even the greenest beginners into knockout surfing pros.

Sport for Development and Peace (SDP) brings the power of sport to solving some of the most difficult challenges of humankind, such as the realisation of the United Nations' Millennium Development Goals. Commonwealth leaders have consistently endorsed the role that SDP can play in development and peace work, in particular in the domain of youth engagement and empowerment. This collection of papers, commissioned by the Commonwealth Secretariat and the Commonwealth Advisory Body on Sport (CABOS), showcases innovative approaches and examples of effective SDP policies and strategies. Written by CABOS members, independent experts and agencies, the papers reflect critical thinking and urgent debates among leading scholars and practitioners of SDP.

A practical guide to proactive investor relations (IR) Investor relations (IR) has traditionally been an administrative function within corporate communications, responsible for disseminating public information and answering investor and media questions. *Using Investor Relations to Maximize Equity Valuation* challenges this approach, by arguing that IR has been underutilized and then illustrating how it should be elevated to lead a strategic communications effort to preserve or enhance corporate value and lower a company's cost of capital. Divided into four comprehensive parts, this book clearly describes capital markets strategies and tactical operations that these former, senior-level equity analysts and portfolio managers employ. Chad A. Jacobs (Westport, CT) and Thomas M. Ryan (Westport, CT) are the cofounders and co-CEOs of Integrated Corporate Relations.

Off the Chain takes readers on a wild ride through the rise of snowboarding, from its hippie origins in the backwoods of Vermont and California to its present incarnation as a \$150 billion global industry. Illustrated with 100 color photographs, *Off the Chain* begins with the sport's early days, when the pioneers built their own boards and snuck onto the slopes. Author Rebagliati profiles snowboarding's most notorious figures, explores the nature of snowboarding culture, and tells what touring as a young World Cup snowboarder is like. He traces the mainstreaming of the sport, the evolution of snowboard fashion, and the emergence of Shaun White as snowboarding's first megastar. He's unsparing in revealing the sport's more controversial aspects, from groupies to drugs, including his own experience having his gold medal revoked -- and then restored -- after failing a drug test. Rebagliati pulls no punches in this lively mix of personal memoir and sports history.

Traces the recent discovery of physics-defying ocean waves at heights previously thought impossible, describing the efforts of the scientific community to understand the phenomenon, the pursuits of extreme surfers to ride these waves, and the destructive capabilities of tsunamis.

Celebrate the 10th anniversary of the greatest skateboard deck compilation with this special print edition of *The Disposable Skateboard Bible*. With the release of *Disposable: A History of Skateboard Art* in 2004, author Sean Cliver made a brilliant attempt at artfully cataloging every important skateboard deck ever released. In the process, he created a classic, but was left feeling less than satisfied. Ever the completist, the gaping omissions in the first book gnawed at him and drove him to envision compiling the ultimate encyclopedia of skateboard decks. While *Disposable* was beautiful, capturing the essence of the aesthetic, *The Disposable Skateboard Bible* sets out to be the ultimate guide. The author's industry insider status (in 1989 he landed his first job as a designer at Powell-Peralta) allows him to guide readers through the culture and experience, the art and the mania of the skate world with authority and expertise. While the boards take center stage, fascinating vignettes and recollections by an A-list of skateboarding personalities from Tony Hawk to Mike Vallely, Mark Gonzales to Stacy Peralta and more.
