~~Variation And Change In Language~~

Language Variation and Change is the only journal dedicated exclusively to the study of linguistic variation and the capacity to deal with systematic and inherent variation in synchronic and diachronic linguistics.

Sociolinguistics involves analysing the interaction of language, culture and society; the more specific study of variation is concerned with the impact of this interaction on the structures and processes of traditional linguistics.

Language, as time passes, language changes and becomes unpredictable among the same group of people. Variation and change in language continue to appear slowly but surely, as long as the atmosphere and surroundings change. The English language, for instance, is different now from Shakespearean English. One of the reasons for language variation and change is the influence deriving from various social pressures and prejudices on a society (Chaturvedi, 2015:107).

In this lesson, students will explore some of the different attitudes that people have towards language use, variation and change. They will be encouraged to adopt a critical approach to language study, thinking carefully about how language is intertwined with sociocultural factors. They will also be asked to reflect on their own attitudes to language.

of French throughout the world, from both synchronic and diachronic standpoints. Students should have a good prior knowledge of Linguistics and of the French language, and ideally will have read Fr2 ' Structures and Varieties of French ' at Part IB.

~~FR13: The French Language: Variation and Change | Faculty ...~~

It makes sense to study these phenomena together because they are intimately related: language change is the basic source of language variation. So studying language change can help us to understand variation, and the nature of linguistic variation provides evidence as to how language changes. Both illuminate the nature of grammar.
